Introduction to the EvoBCInOut App

The **EvoBCIn/Out** application is a stand-alone desktop application geared toward Technicians that allows them to check steps in and out using a barcode scanner.

Multi-Case Mode

Checking In Cases

When you bring up the form, it defaults to **Multi-Case** mode. This is a faster way of checking the same step in/out on valid multiple cases. To begin the cursor will be placed in the **Tech ID** field.

1. Enter a valid Tech Id and press tab or enter. The Tech Name field will be populated automatically.
2. Enter or scan in the case number. NOTE: If you are typing in the number and the prefix year is the current year, you only need to enter the case number extension (e.g., for case number 2024-334, you only need to enter “334.” Then press tab or enter. If the case is ready for the selected step, the case will be added to the list. You may continue entering/scanning case numbers.

BarCode In/Out

☐ Single Case Mode

Tech ID: 222 Tech Name: Krista Hill

Case Num: Step: Denture Pour & Trim

Clear Form

Clear Form: use when done OR if you wish to start over

Case Number	Step Description	Operation	Operation Status	Ordering Location
2024-279	Denture Pour & Trim	CheckIn	Pending	ABS Dental Lab, Inc
2024-310	Denture Pour & Trim	CheckIn	Pending	ABS Dental Lab, Inc

Check In

Check In

3. When all cases have been added to the list select **Check In**. Then select **Clear Form**.

Checking Out Cases

When you bring up the form, it defaults to **Multi-Case** mode. This is a faster way of checking the same step in/out on valid multiple cases. To begin the cursor will be placed in the **Tech ID** field.

1. Enter a valid Tech Id and press tab or enter. The Tech Name field will be populated automatically.
2. Enter or scan in the case number. NOTE: If you are typing in the number and the prefix year is the current year, you only need to enter the case number extension (e.g., for case number 2024-334, you only need to enter “334.” Then press tab or enter. If the case is checked into the selected tech and step, the case will be added to the list. You may continue entering/scanning case numbers.

The screenshot shows the EvoBCInOut application window. At the top, there's a 'BarCode In/Out' title bar. Below it, a 'Single Case Mode' checkbox is unchecked. The 'Tech ID' field contains '222', and the 'Tech Name' field is populated with 'Krista Hill'. The 'Case Num' field is empty, and the 'Step' dropdown is set to 'Denture Pour & Trim'. A 'Clear Form' button is located to the right of the 'Step' dropdown. Below these fields is a table titled 'Selected Cases' with the following data:

Case Number	Step Description	Operation	Operation Status	Ordering Location
2024-279	Denture Pour & Trim	CheckOut	Pending	ABS Dental Lab, Inc
2024-310	Denture Pour & Trim	CheckOut	Pending	ABS Dental Lab, Inc

At the bottom of the window, there is a 'Check Out' button. A red arrow points to this button with the text 'Check Out'. Another red arrow points to the 'Clear Form' button with the text 'Clear Form: use when done OR if you wish to start over'.

3. When all cases have been added to the list, select **Check Out**. Then select **Clear Form**.

NOTE:

If you are interested in turning on the feature to allow non-ready steps to be bypassed, contact ABS Support.

Single-Case Mode

Checking In Cases

When you bring up the form, it defaults to **Multi-Case** mode. However, you may check the **Single Case Mode** box to check in a specific case.

The screenshot shows the top portion of the 'BarCode In/Out' application window. The 'Single Case Mode' checkbox is checked. Below it are input fields for 'Tech ID' and 'Tech Name'. At the bottom, there are partial views of 'Case Num' and 'Step' fields.

1. Enter a valid Tech Id and press tab or enter. The Tech Name field will be populated automatically.
2. Enter or scan in the case number. NOTE: If you are typing in the number and the prefix year is the current year, you only need to enter the case number extension (e.g., for case number 2024-334, you only need to enter “334.” Then press tab or enter.
3. The step that is ready on the case will pull into the **Step** field.

This screenshot shows the full 'BarCode In/Out' form. The 'Single Case Mode' checkbox is checked. The 'Tech ID' is '222' and 'Tech Name' is 'Krista Hill'. The 'Case Num' is '2024-313' and the 'Step' is 'Denture Pour & Trim'. A 'Clear Form' button is on the right. Below this is a 'Step Info' section with a table of case steps. The 'Status' column shows 'Ready', 'Scheduled', and 'Scheduled'. The 'Step' column shows 'Denture Pour & Trim', 'Setup', and 'Wax up'. The 'Tech' column shows 'Denture Pour & Trim', 'Setup', and 'Wax up'. Below the table is a 'Step Teeth' field. Further down is a 'Case Info' section with fields for 'Doctor' (Iero Test Account), 'Patient' (Nelson, Jill), 'Ordering Location' (ABS Dental Lab, Inc), and 'Pan Num'. There is also a 'Services' dropdown menu showing 'Denture - Vivodent PE'. At the bottom are two tables: 'Shade' and 'Tooth Type'. At the very bottom are 'Clear Case' and 'Check In' buttons. Red arrows point to the 'Clear Form', 'Clear Case', and 'Check In' buttons.

Status	Step	Tech
Ready	Denture Pour & Trim	Denture Pour & Trim
Scheduled	Setup	Setup
Scheduled	Wax up	Wax up

NOTE:
If you are interested in turning on the feature to allow non-ready steps to be bypassed, contact ABS Support.

With that setting on, you will be able to select a step further down in the schedule to check in and then bypass prior uncompleted steps.

4. Select **Check In**, to check in the step.
5. To enter another case for the same Tech and Step, select **Clear Case**.
6. When done, select **Clear Form**.

Checking Out Cases

When you bring up the form, it defaults to **Multi-Case** mode. However, you may check the **Single Case Mode** box to check in a specific case.

The screenshot shows the top portion of the 'BarCode In/Out' application window. The 'Single Case Mode' checkbox is checked. Below it are input fields for 'Tech ID' and 'Tech Name'. At the bottom, there are partial views of 'Case Num' and 'Step' fields.

1. Enter a valid Tech Id and press tab or enter. The Tech Name field will be populated automatically.
2. Enter or scan in the case number. NOTE: If you are typing in the number and the prefix year is the current year, you only need to enter the case number extension (e.g., for case number 2024-334, you only need to enter “334.” Then press tab or enter.
3. The step that is checked in on the case to the tech will pull into the **Step** field.

This screenshot shows the full 'BarCode In/Out' form. The 'Single Case Mode' checkbox is checked. The 'Tech ID' is 222 and 'Tech Name' is Krista Hill. The 'Case Num' is 2024-313 and the 'Step' is 'Denture Pour & Trim'. A 'Clear Form' button is on the right. Below is a 'Step Info' section with a table of case steps. The 'Step Teeth' field is empty. The 'Case Info' section includes fields for Doctor, Patient, Ordering Location, and Pan Num. The 'Services' section shows 'Denture - Vivodent PE'. There are two tables for 'Shade' and 'Tooth Type'. At the bottom are 'Clear Case', 'Check Out', and 'Clear Form' buttons. Red arrows point to the 'Clear Form', 'Clear Case', and 'Check Out' buttons.

Status	Step	Tech
Checked In	Denture Pour & Trim	Krista Hill
Scheduled	Setup	Setup
Scheduled	Wax up	Wax up

4. Select **Check Out**, to check out the step.
5. To enter another case for the same Tech and Step, select **Clear Case**.
6. When done, select **Clear Form**.
